Cloudhaus *Studio Deck*

Thoughtful interiors, from the first
idea to the final detail.

Cloudhaus Interiors

Cloudhaus is a small interior design studio founded by Claudya Monalevy in 2021.

After a decade designing commercial and residential spaces across Indonesia—particularly in Bali—the practice now works on a limited number of homes, villas, and select commissions abroad.

Three projects a year. Material-led. Quietly precise.

Rooms with a long memory.

We design as if the room will outlive the trend—because, usually, it does.

01

Material first

Natural stone, timber, linen, plaster, and objects chosen for how they age.

02

Quiet precision

Plans and details are resolved carefully, without making a room feel overworked.

03

A smaller practice

Fewer projects allow for deeper attention, clearer decisions, and a more personal process.

A small body of work, made carefully.
